

OZONIC -> water treatment- & disinfection - plant

treated water for several amounts of drinking water supply,
as well as fumigated/disinfected volume of water (quantity)

schematic diagram:

[water treatment + solar energy = solution]

OZONIC - 1000 / mobile plant / 1000 liters/hour
OZONIC - 3000 / mobile plant / 3000 liters/hour
OZONIC - 5000 / stationary plant / 5000 liters/hour
OZONIC - 7000 / stationary plant / 7000 liters/hour

mains supply (grid)

mains operation

AC/DC
converter
24 V DC
15-20 A
300 - 500 W

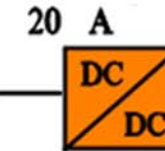

solar-powered

environmental friendly alternative

24 V DC
150 - 200 Ah

charge controller

24 V DC
15-20 A
 $P_{max} \approx 200 W_p \times 2$
 $\approx 400 W_p$

solar panel

diesel generator

environmental polluted alternative
